

MOATTI FILTERS (ALFA LAVAL)

Throughout the years, IMSE has built-up a broad know-how on Alfa Laval products in general. Within the total Alfa Laval scope of supply, IMSE is also specialized in supply of spares suitable for Alfa Laval Moatti fuel and lube oil filters.

With our years of experience, inside technical knowledge and global presence, IMSE can deliver added value to customers for this equipment, normally only offered by OEM's.

Depending on your preference, IMSE can deliver genuine, equivalent or reconditioned parts for the full range of Moatti filters, including older types.

IMSE can supply customers rapidly around the globe through our logistic department.

**“Because quality and knowhow
are essential”**
